ABOUT THE NATIONAL YOUTH SURVEY

The National Youth Survey (NYS) is a time-series study into the major concerns and issues of schooling and working youths in Singapore. To date, NYS has been conducted in 2002, 2005, 2010, 2013 and 2016.

NYS 2016 surveyed a total of 3,531 youth aged 15-34 who were randomly selected from the resident youth population. With each survey, the NYS aims to provide an updated analysis of national youth statistics that can help to inform policy and practice.
