ABOUT THE NATIONAL YOUTH SURVEY

The National Youth Survey (NYS) is a time-series study into the major concerns and issues of schooling and working youths in Singapore. To date, the NYS has been conducted in 2002, 2005, 2010, and 2013.

NYS 2013 adopted a random household sampling method to ensure accurate representation of the resident youth population aged 15-34 years old. A total of 2,843 youths were surveyed between September and December 2013.

ABOUT THE NATIONAL YOUTH COUNCIL

At NYC, we believe in a world where young people are respected and heard, and have the ability to influence and make a difference to the world. Together with our partners, we develop a dynamic and engaging environment where young people are inspired to dream and committed to action.
